# APPENDIX E – PACKAGING TESTING FACILITIES, MANUFACTURERS AND SUPPLIERS

## E.0 General

This Appendix contains three lists relating to UN specification packaging. The first list (E.1) is composed of package manufacturers and suppliers of UN specification packaging. The second list (E.2) is composed of facilities which can perform the package performance tests required by these Regulations. A third list (E.3) shows all packagings which are specified in the United Nations *Recommendations on the Transport of Dangerous Goods* and which are permitted for air transport.

The information in these lists has been provided by many sources and is provided solely as an aid to shippers. The lists are not to be construed as being part of the Regulations or as an endorsement of the facilities and companies listed. While IATA believes the information to be accurate, it takes no responsibility for any errors or omissions.

Packaging suppliers wishing to be included in the list of UN Specification Suppliers are invited to contact:

Assistant Manager, Advertising and Promotional Sales  
International Air Transport Association  
800 Place Victoria  
P.O. Box 113  
Montreal Quebec  
CANADA H4Z 1M1  
Tel: +1 (514) 390 6732  
Fax: +1 (514) 874 9633  
E-mail: [advertising@iata.org](mailto:advertising@iata.org)

An administrative fee will be charged.

## E.1 UN Specification Packaging Suppliers

This list will assist shippers and manufacturers of dangerous goods in locating UN specification packagings of the type they require. Suppliers are listed alphabetically by country and the types of packagings available are listed. The list includes packaging types normally used only in combination packagings. Shippers should note that combination packagings must be tested and certified as complete packages as intended for transport.
