# Traveling with electronic devices?

## Here's three steps to help you fly safely:

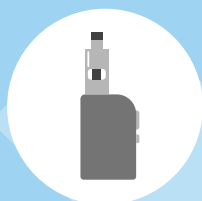

1

It is best to pack **lithium-powered devices** and accessories into your **carry-on bag**.

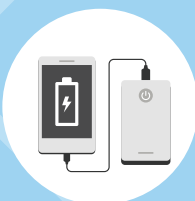

2

Electronic cigarettes, power banks and spare batteries **MUST be kept in your carry-on bag**.

ELECTRONIC  
CIGARETTES

POWER  
BANKS

SPARE  
BATTERIES

3

If you must pack your tablet, mobile or laptop in your checked luggage, be sure they are **completely turned off** (not in “hibernate” or “sleep” modes).

If in doubt, contact your airline.
